Bucharest

BUILT FOR DEMANDING PROJECTS

→ OUR WORK IS FOR PEOPLE WITH VISION

MS Projects is a trusted specialist in heavy transport, delivering safe, precise and customer-focused solutions for oversized and high-value cargo across Europe. With over 20 years of operational know-how, the company combines route planning, permitting expertise, specialized equipment and disciplined execution to move complex loads efficiently from origin to destination.

WHY CLIENTS CHOOSE MS PROJECTS

OVERSIZED & HEAVY HAUL TRANSPORT

Safe and compliant movement of oversized and extreme weights using technically analyzed routes, multi-axle configurations, and approved permits.

LOWBED TRANSPORT & LONG CARGO

Optimized transport of tall, heavy, and long cargo with clearance management, stability analysis, and certified load securing.

URBAN & RESTRICTED-ACCESS TRANSPORT

Controlled operations in urban and sensitive environments with traffic management, night movements, and measures for public safety.

CROSS-BORDER ROAD TRANSPORT

International heavy transport executed in full compliance with multi-jurisdictional regulations, customs coordination, and HSE standards.

ESCORT, SAFETY & COMPLIANCE SERVICES

Pilot vehicles, traffic control, risk assessments, and method statements aligned with ISO 9001, 14001, 27001, and 45001 requirements.

First in all we do.

TAILORED SOLUTIONS

We adapt to your unique project needs.

RELIABILITY & EXPERIENCE

20+ years of proven expertise.

PARTNERSHIP APPROACH

We build trust and deliver value.

HEAVY HAUL & OVERSIZED TRANSPORT

Serving a wide range of industries, MS Projects delivers tailored transport solutions focused on efficiency, reliability and strict safety standards. Oversized and heavy-load movements require strategic planning, specialized equipment and technical expertise supported by disciplined execution from start to finish.

From route analysis and technical assessments to permitting, escort coordination, execution and final positioning, every move is managed with precision, compliance and full operational control.

SPECIALIZED EQUIPMENT FOR OVERSIZED & HEAVY LOADS

- **Lowbed Trailers:** Ideal for tall and heavy machinery, keeping cargo stable and secure.

- **Extendable Semi-trailers:** Perfect for extra-long loads, providing the flexibility needed for irregular-sized freight.

- **Modular Trailers with vesselbridges:** Engineered to support extreme weight capacities, making them ideal for industrial and super loads.

- **Mega Platform trailers:** Versatile solutions for construction materials, oversized equipment, and industrial freight.

AUTHORISED ADR TRANSPORT

MS Projects operates an ADR-certified fleet and experienced drivers for the safe transport of hazardous materials, including Battery Energy Storage Systems (BESS), in full compliance with international regulations.

We operate a fleet of 34 trailers specifically designed for transporting BESS units weighing up to 49 tons.
